

High performance labelling system for cylindrical products.

This is the high performances automatic labelling systems suitable for applying wrap around labels onto: flacons, jars, cans, glass or plastic bottles and onto various cylindrical products. MASTER WA has been based configured in order to respect the most rigid pharmaceutical and alimentary standards. It can also integrate several controls and verification options.

- Max. speed: **up to 18000 p/hour**
- Max. label width: **140 mm**
- Approx dimensions: **2000 x 1600 x 2300 mm**

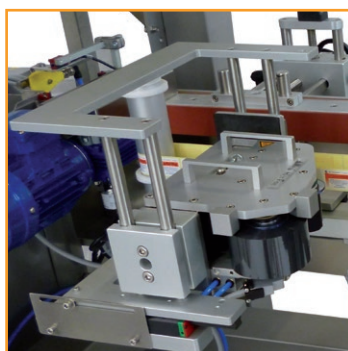

EN

## STANDARD FEATURES

Labelling unit LABEX 140 ES  
Horizontal and vertical micro regulation unit with numeric indicators  
Conveying module with flat belt  
Wrap around device with AC motor plus inverter  
Automatic speed synchronization  
MASTER main frame in painted steel  
Total protections in transparent polycarbonate  
Centralized electronic control with Touch screen operator panel  
PLC unit with memory of setting parameters

Worm screw separator

Hot foil coding unit

## APPLICATIONS AREAS

## OPTIONAL ACCESSORIES

LABELX 140 RM  
Photostop for transparent labels  
Product separator device  
Hot foil coding unit  
Thermal transfer printing units  
Print presence control  
Label presence control  
Barcode control  
Automatic ejector  
IQ/OQ Documentation
